

PERMISSION TO REPRODUCE MATERIAL FROM *SRL*

The Seismological Society of America (SSA) no longer requires that permission be obtained from SSA or the author(s) for the use of tables, figures, or short extracts of papers published in SSA journals, provided that the source be appropriately and accurately cited. However, the author's permission must be obtained for modifying the material in any way beyond simple redrawing.

SSA recommends that the credit line read "authors, article title, journal title, volume number, page number(s), year, © Seismological Society of America."

SSA does require that the article be published by SSA before any material may be reproduced therefrom.

BACK ISSUES AVAILABLE

Back issues of volumes 66 to date of *SRL* are still available. Limited quantities of issues of volumes before 66 are also available. Prices for single copies of volumes 66 to date (1995 to date) are \$10.00 per issue, except for issues 68:1 and 68:4, which are \$20.00 each. Single copies of available issues from volumes before 66 are \$15 each, except for issues 63:3 and 58:4, which are \$25 each. Orders should be sent to the Seismological Society of America, 201 Plaza Professional Building, El Cerrito, California 94530.

Seismological Research Letters

Seismological Research Letters (SRL) is published bimonthly by the Seismological Society of America. *SRL* is a unique journal—the first to serve as a general forum for informal communication among seismologists, as well as between seismologists and those nonspecialists interested in seismology and related disciplines.

The contents of *SRL* include contributed articles on topics of broad seismological and earthquake engineering interest, opinion pieces on current seismological topics, news and notes about seismology and seismologists in the U.S. and internationally, special earthquake reports, the Electronic Seismologist and EduQuakes columns, strong motion network reports, equipment news, and letters to the editor. A special section in *SRL* for the Eastern Section of the Seismo-

logical Society of America focuses on eastern North American seismology. Abstracts of papers to be presented at the Annual Meeting of the Seismological Society of America and the annual meeting of the SSA Eastern Section also appear in *SRL*, as does the annual roster of members of the Society.

The subscription rate for North American institutions is \$103*; for countries outside North America the rate is \$113*. Subscription rates include normal shipping; for air mail delivery outside the U.S. please include an additional payment of \$25.

Note: Subscribers to both *SRL* and our sister publication *Bulletin of the Seismological Society of America (BSSA)* are eligible for a combined discounted rate *if both are ordered together*. See below for combined rate information.
