PERMISSION TO REPRODUCE MATERIAL FROM *SRL*

The Seismological Society of America (SSA) no longer requires that permission be obtained from SSA or the author(s) for the use of tables, figures, or short extracts of papers published in SSA journals, provided that the source be appropriately and accurately cited. The author's permission must be obtained for modifying the material in any way beyond simple redrawing, however.

SSA recommends that the credit line read "authors, article title, journal title, volume number, page number(s), year, © Seismological Society of America."

SSA does require that the article be published by SSA before any material may be reproduced therefrom.

BACK ISSUES AVAILABLE

Back issues of volumes 66 to date of *SRL* are still available. Limited quantities of issues of volumes before 66 are also available. Issues from volumes 66 to 72 are \$10 each, except for 68:1 (\$25 each) and 68:4 (\$20 each). Issues from volumes 73 and 74 are \$15 each, except for 73:5 and 74:5, which are \$25 each. Issues from volume 75 forward are \$20 each. Available issues from volumes before 66 are \$15 each, except for issue 58:4, which is \$25. Orders should be sent to the Seismological Society of America, 201 Plaza Professional Building, El Cerrito, California 94530. Seismological Research Letters

Seismological Research Letters (SRL) is published bimonthly by the Seismological Society of America. *SRL* is a unique journal—the first to serve as a general forum for informal communication among seismologists, as well as between seismologists and those nonspecialists interested in seismology and related disciplines.

The contents of *SRL* include contributed articles on topics of broad seismological and earthquake engineering interest, opinion pieces on current seismological topics, news and notes about seismology and seismologists in the U.S. and internationally, special earthquake reports, the Electronic Seismologist column, strong-motion network reports, equipment news, and letters to the editor. A special section in *SRL* for the Eastern Section of the Seismological Society of America focuses on

eastern North American seismology. Abstracts of papers to be presented at the Annual Meeting of the Seismological Society of America and the annual meeting of the SSA Eastern Section also appear in *SRL*.

The subscription rate for North American institutions is \$150*; for countries outside North America the rate is \$160*. Subscription rates include normal shipping; for priority mail delivery within the United States please include \$30, outside the United States please include an additional payment of \$35.

Note: Subscribers to both *SRL* and our sister publication *Bulletin of the Seismological Society of America (BSSA)* are eligible for a combined discounted rate if both are ordered together. See below for combined rate information.
