

THE SEISMOLOGICAL SOCIETY OF AMERICA

**The Seismological Society of America (SSA)
is an international scientific society
devoted to
the advancement of seismology
and the understanding of earthquakes
for the benefit of society.**

Founded in 1906 in San Francisco, SSA began
in response to the 1906 San Francisco earthquake.

More than a century later,
the Society has grown into a worldwide professional organization
that has an international membership.
Today, SSA members include seismologists,
geophysicists, geologists, engineers,
insurers, policymakers, and others who work to
ensure earthquake preparedness and earthquake safety.
