Taxonomy of κ : A Review of Definitions and Estimation Approaches Targeted to Applications

by Olga-Joan Ktenidou, Fabrice Cotton, Norman A. Abrahamson, and John G. Anderson

We spotted some errors and typos in the labels of Figure 2:

- “Ktenidou *et al.* (2012a)” and “Ktenidou *et al.* (2012b)” should be replaced by “Ktenidou *et al.* (2012)” and “Ktenidou and Van Houtte (2012).”
- “Drouet *et al.* (2010) (France— κ_{AS})” should be replaced by “Drouet *et al.* (2010) (France— κ_{TF}).”

▲ **Figure 2.** (a) Existing κ_0 - V_{S30} correlations proposed in the literature. (b) Grouping of existing correlation data with region. (c) Grouping of existing correlation data with method. The limits of site classes A–E according to the National Earthquake Hazards Reduction Program (NEHRP) (see BSSC, 2003) are also shown. The color version of this figure is available only in the electronic edition. (Continued)

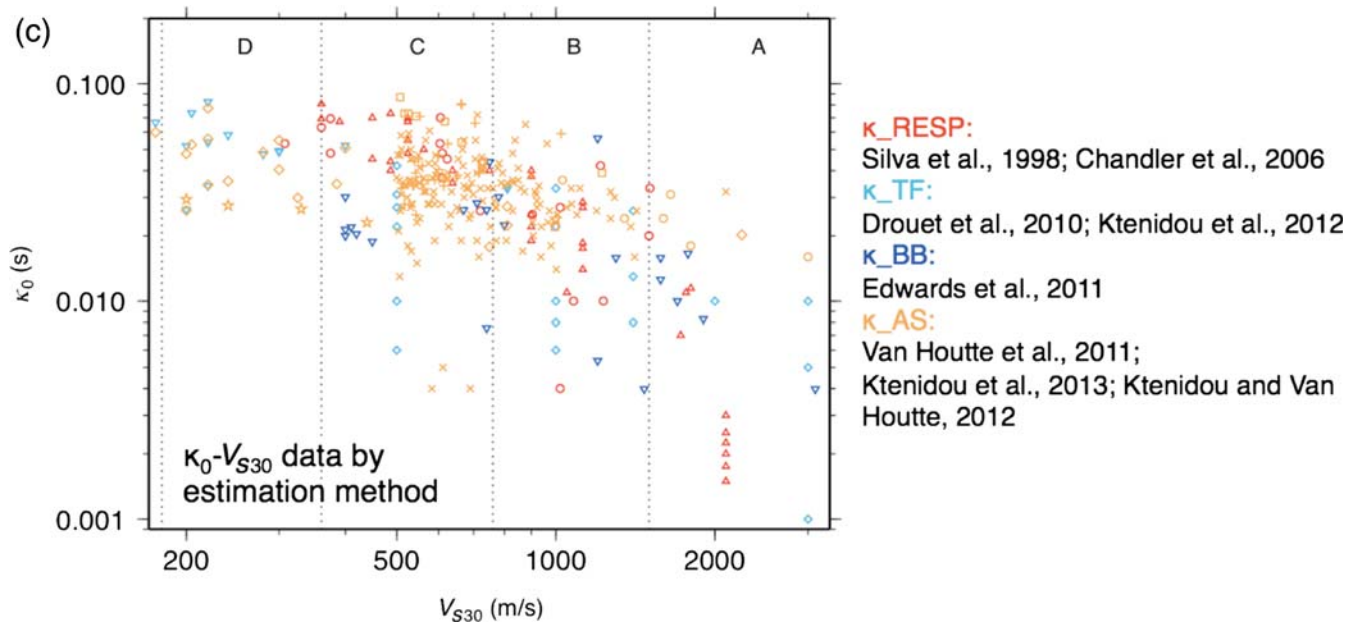

Figure 2. Continued.

We apologize for these oversights and assure the reader that no part of the paper's content or conclusions is affected by them.

The corrected Figure 2 is presented above, with the original caption, for the sake of completeness. ☒
